WHY CPAP SUPPLIES NEED REPLACED

CPAP supplies are designed to be disposable. Masks, cushions, headgear, tubing and filters are not designed to last! Using these items past their recommended time can have negative effects on your CPAP therapy. Over time, delicate mask cushions begin to break down which causes your mask to develop leaks and clogged filters. Below is a recommended replacement schedule for CPAP supplies based on Medicare and private insurance companies. Call Kubat at **(402) 558-1192** to replace your supplies today!

CPAP Mask

- Allow 1 Mask with Headgear - Every 6 Months
- Allow 2 Nasal Cushions Per Month
- Allow 1 Full Face Cushion Per Month

Chin Strap

- Allow 1 Every 6 Months

CPAP Filters

- Allow 2 Disposable Per Month

CPAP Tubing

- Allow 1 Every 3 Months

Humidifier Chamber

- Allow 1 Every 6 Months

The CPAP supplies listed above may be billed to your insurance.

Note: You are responsible for all co-pays and deductibles
